

Parents and Students,

We have created a partnership with a company called Boomerangcast to help with mobile voting for school events, elections, fundraising, and building school spirit. Through the partnership, we will be conducting voting at school events through the free Boomerangcast mobile app. Boomerangcast provides this service with no out-of-pocket costs to our school. Each student is given a Boomerangcast login allowing us to send out polls to all students, or a subset of them, with real-time results.

We encourage you to participate in voting at our school events and move from an attendee, to an integral part of our events. Please download the free app to participate in our polls by searching for 'BOOMERANGCAST' in your app store or using this link: <http://onelink.to/myp4nb>

About Boomerangcast

BoomerangCast provides a mobile voting solution for schools to help raise money and build community with local businesses without incurring any out-of-pocket costs for schools. The mobile voting platform can be used for student elections, sporting events, rallies, talent shows, parent/student activities, and other school voting opportunities that engage students and/or their families. BoomerangCast does NOT, nor ever will, share any personal information about people voting with any sponsors as stated in their privacy policy and terms of use located here:

<http://www.boomerangcast.com/mobile-privacy-policy-and-terms-of-use.html>

For more information on BoomerangCast and their solution for schools, please visit their website at www.boomerangcast.com/schools.html

Please feel free to modify, add, or omit any of the information contained in this introductory letter. This letter is designed to purely serve as a template in hopes that it helps introduce Boomerangcast to your school. Please contact us at support@boomerangcast.com with any questions or comments!
